News and useful information on health, wellbeing and what's on for people in Withington and Old Moat.

Neighbourhood Partnership

Thank you to everyone who continues to attend our Withington and Old Moat Neighbourhood Partnership Meetings.

For anybody who hasn't attended a neighbourhood partnership meeting before, these meetings take place four times a year and are a space where local people and workers across all sectors can come together to share thoughts and discuss priorities around health and wellbeing for the neighbourhood.

Neighbourhood partnership meetings are also a space to connect with others and build more awareness of what is available in the neighbourhood. We welcome all partners to this meeting including active residents who want to find out more about the work that is taking place in the area and offer their knowledge of the local community and their lived experience to help improve health and wellbeing for residents.

To join the neighbourhood partnership mailing list and receive invitations to future meetings contact Yasmin Holgeth, Health Development Coordinator for Old Moat and Withington, Manchester Local Care Organisation for more information:

Annual Health Checks for people with Learning Disabilities

Everyone over the age of 14 with a Learning Disability can have an annual health check at their GP. The health check is a useful way to help you keep well. Get in touch with your GP if you haven't had your annual health check.

NHS App

Have you got the NHS App?

Did you know that on the free NHS App you can manage prescriptions, view issued medication with a barcode for easy collection at pharmacies, access test results, and in some cases see documents, consultations, or even book appointments (where available).

You can also change your nominated pharmacy.

These features can save both you and your GP surgeries a lot of time by reducing unnecessary calls and improving access to care from home. To find out more about the NHS App visit: **www.nhs.uk/nhs-app/** or Contact your GP Surgery.

NHS

You can't see an Abdominal Aortic Aneurysm, but the NHS can via a simple, 10-minute, pain-free ultrasound scan of your stomach, which spots any swelling in your aorta early.
