

Didsbury, Burnage and Chorlton Park Integrated Neighbourhood Team.

Our plan on a page 2021-2022.

About our neighbourhood

60,000 people live here, almost 10% of the population of Manchester

The neighbourhood hosts a variety of active and innovative VSCE organisations

Some areas of the neighbourhood are well served by green spaces and transport links

We are a diverse area and have a relatively old population

We have a high rates of emergency hospital admissions

Located approximately 3 miles south west of the city centre Didsbury, Burnage and Chorlton Park is a diverse area with many different communities. Some parts of the neighbourhood are well served and have good access to a range of services and retail areas, as well as a mix of different housing to lower income families or older people living alone. Other areas of the neighbourhood have less immediate access to facilities and services.

How this plan was put together

This plan has been developed by the Didsbury, Burnage and Chorlton Park Neighbourhood Leadership Team and wider stakeholders of the neighbourhood. It builds on the 2019/20 Neighbourhood Plan and the draft 2020/21 plan which was never fully realised due to the COVID-19 pandemic.

Our priorities

The key things we are doing in our neighbourhood this year to improve health and wellbeing, as well as tackle health inequalities:

We will accelerate further the integration of teams and wider services to strengthen integrated care to support people who are living in the neighbourhood to keep well, for example the coordinated care pathway.

We will develop co-produced neighbourhood health and wellbeing approaches with schools, children's and wider services in the neighbourhood in support of taking a family approach to promote healthy living by focusing on finding neighbourhood solutions to issues around access to food, healthy weight, nutrition and vaccinations.

We will enhance mental health provision by increasing access to services and activities that build resilience; support those who most need it and work together to understand gaps, including embedding mental health across the coordinated care pathway.

We will develop co-produced solutions to increase uptake of flu, COVID and childhood immunisation vaccines with our partners and public.

We will continue to strengthen our links with Primary Care Network and individual practices to tackle health inequalities.

We will continue to celebrate our collective successes and working to meet challenges together and nurture our health and wellbeing.

Powered by:

We're also working on a number of citywide priorities that will benefit the neighbourhood

1 Support the development and roll-out of Population Health Management

2 Collaborate with children's services and build a 'Think Family' approach into the model

3 Further integrate adult social care and support for care homes

4 Align Integrated Neighbourhood Teams, Primary Care Network workforce and organisation development Plans

5 Embed the MLCO Executive lead role in each neighbourhood

These are areas of work that are taking place across the city in all 12 of our neighbourhoods.

What your Integrated Neighbourhood Team does

Manchester Local Care Organisation is a pioneering public sector organisation that has brought together and provides your NHS community health services and adult social care services in Manchester. We are part of both the NHS and the local authority.

We take a neighbourhood approach to care as we understand that people require care as close to home as possible. We want to provide the best care right across the city, but we also know that local areas have different requirements.

Our approach is based on dividing Manchester into 12 neighbourhoods and tailoring care to local needs. In a practical way, that means our health care teams (such as district nursing teams) and social care teams are based in buildings together. Care can be planned and delivered in a seamless way with teams taking a joint approach around individuals, working closely with local GPs. It's an approach based on international best practice that we've adopted in Manchester.

As well as providing these core day to day services, the Integrated Neighbourhood Team have a role in working with local people and partners. They build links with other partners in their neighbourhood – from Manchester City Council neighbourhood teams, local housing associations, police and voluntary organisations - so everyone is working together around the needs of the neighbourhood.

Your neighbourhood leadership team

Annabel Hammond
Neighbourhood Lead

Oliver Atkinson
GP Lead

Niikwae Kotey
Social Care Lead

Suzanne Leonard
Nursing Lead

Fiona Vincer
Health Development Coordinator

Becky Beckford
Mental Health Lead
