

Central Manchester Community/MRI

Community Alternatives to Admission – Winter 2024/25

Hospital at Home

Provides provides the care and monitoring that patients expect in hospital, delivered in their home under a consultant or GP.

Focus on patients with conditions such as frailty, respiratory issues or heart failure and comorbidities. However, other acute conditions are also considered by the team. Please call to discuss any patient. Patients can be supported in several ways:

- Service in the patient's home. This is where team (including hospital consultants and GPs) visit at home to provide assessments, care and therapy
- Providing telemedicine support and remote vital sign monitoring
- Providing social support, or a combination of these offers.

Central Manchester Hospital at Home

Supports patients living or registered with a GP in Central Manchester. Patients must be aged over 18. Open from 08:30 – 22:00, seven days (last community referral time 18.00).

Tel: 0161 529 6220 to refer or discuss a patient. Hospital inpatient step down referrals can be made via Hive.

Info on all H@H services in Manchester available via www.manchesterlco.org/hospital-at-home

Manchester Community Response (MCR)

Crisis Response

(Admission Avoidance)

Provides urgent assessment & support at home for up to 72 hours. Integrated health & social care team of ACP's, nurses, physio's, OT's, pharmacists, social workers and HCA's. Manchester GP Registered patients only.
